

Rubric:

A 93-100

Excellent: (20 pts each)

- _____ Placement of subject matter,
- _____ Use of texture and shapes creates a scientific image
- _____ Following Procedure
- _____ **All supplies were cleaned and put away properly**

93-100% complete/needs little to no rework

End result created is not under worked or overworked/shows a degree of excellence/full to nearly full resolution. Image is organic and layered using textures communicating image with intent. The printing of the plate shows correct use of ink, press, image registration. Excellence in skills developed in use of materials is apparent. Final print and portfolio were submitted on time correctly.

B 85-92

Good: (20 pts each)

- _____ Placement of subject matter,
- _____ Use of texture and shapes creates a scientific image
- _____ Following Procedure
- _____ **All supplies were cleaned and put away properly**

85-92% complete/needs some rework for it to be an A

Some of image areas showed attention to development of image. Good choices were made in use of texture and shape. Entire plate was not utilized to best degree. A degree of resolution has been achieved. Some skill can be seen with the use of materials. Clean up was not consistent

C 84-76

Average: (20 pts each)

- _____ Placement of subject matter,
- _____ Use of texture and shapes creates a scientific image
- _____ Following Procedure
- _____ **Some supplies were cleaned and put away properly**

76-84% complete/needs much rework for the work to be completed/resolved

Supplies were left out. Many areas not addressed or underworked. Subject was not thoughtfully created. Average degree of depth achieved through overlapping. Matrix was overworked or non-existent. Materials were not properly used and clean up was insufficient.

D 75-70

**Turned something in order to prevent
_____ receiving an F for the final grade**

**ALL PROJECTS ARE SUBJECT TO THE LATE PENALTIES OF
THE SUBTRACTION OF 10 PTS OUT OF 100 FOR EACH DAY THE
PROJECT IS NOT SUBMITTED COMPLETE.**
