

# Project: Stunning Shoe Drawing

*Students will create a mixed media shoe drawing that demonstrates they understand how to create a limited range of value with graphite pencils and create a variety of patterns with sharpie markers.*

## Project Instructions:

- Students will draw an outline by observing the shoe they are wearing in class.
- Students will divide the shoe into three, four, or five uneven spaces using organic shapes.
- Students will determine which areas of their shoe drawing they want to apply graphite pencil to versus sharpie markers.
- Students will use an H, HB, 2B and 4B graphite pencils to build value and shading in the selected portions of their shoe.
- Students will determine a color scheme for their pattern work.
- Students will use sharpie markers to create patterns on their shoe.
- Students will cut and attach their finished shoe to a piece of gray construction paper.
- Students will add pattern with sharpie marker to their gray construction paper to achieve visual unity in their artwork.
