

PROJECT CRITERIA:

Students will create a landscape collage using torn magazine pages.

- Elements of Art focuses: space, color, value, and texture.
- Principles of Design focuses: contrast, balance, movement, proportion/scale, unity, and emphasis.

PROJECT INSTRUCTIONS:

- Student select a landscape image they would like to reference for inspiration; it is strongly encouraged students select an image from a personal travel experience.
- Students follow the step-by-step demonstration on how to create a collage using magazines.
- After watching the demonstration, students begin sourcing colors from magazines to create their artwork; students place sourced colors into ziplock bags for storage and organization.
- Students lightly sketch large portions of their landscape onto tagboard paper.
- Students start creating their collage by gluing down torn magazine pieces for their sky/background.
- Once their sky/background has been completed, student begin working on their middle ground space.
- Students finish their landscape by adding torn magazine pieces to their foreground space.
- When glue is dry, students use acrylic paint pens for accent details.

LANDSCAPE COLLAGE
